## **AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

## **LISTING OF CLAIMS:**

Claim 1 (currently amended) A paper for ink jet and electrophotographic recording which comprises a support having a cationic resin present on a surface of the support, the cationic resin adhered thereto in a dry adhering amount of 0.5-2.0 g/m<sup>2</sup> and which has a surface resistivity of  $1.0 \times 10^9$  -  $9.9 \times 10^{13} \Omega$ , wherein the cationic resin has a cation equivalent of 3-8 meg/g as measured by colloidal titration method.

Claim 2 (canceled).

Claim 3 (original) A paper for ink jet and electrophotographic recording according to claim 1, wherein the support has a neutral rosin sizing agent or an alkenyl succinic anhydride as an internal sizing agent.

Claim 4 (original) A paper for ink jet and electrophotographic recording according to claim 1, wherein the support contains a waste paper pulp.

Claim 5 (previously presented) A paper for ink jet and electrophotographic recording according to claim 1, wherein the surface resistivity is  $1.0 \times 10^{10}$  -  $9.9 \times 10^{13} \Omega$ .

Claim 6 (previously presented) A paper for ink jet and electrophotographic recording according to claim 1, wherein the paper for ink jet and electrophotographic recording is made of plain paper, and the support is a paper.

Claim 7 (currently amended) A paper for ink jet and electrophotographic recording according to claim 1, wherein the cationic resin is present on surfaces of adhered to both sides of the support.
